"RINGING" AND "BUSY" SIGNAL

Within a few seconds after you have completed the dialing, either the ringing signal or the busy signal should be heard.

The ringing signal is a faint, intermittent "burring" sound which indicates the bell of the called telephone is ringing. If, after hearing the signal repeated for a reasonable length of time, you obtain no answer, hang up your receiver and call again later.

The busy signal is a rapid "buzz-buzz-buzz" sound and is heard when the line you are calling is in use. When you hear the busy signal, hang up your receiver and call again later.

REPLACE THE RECEIVER AFTER YOU HAVE FINISHED EACH CALL

The dial service connection is controlled by the calling subscriber. The equipment is restored to normal when the calling subscriber replaces the receiver on the telephone.

If a second call is desired, it can be made after the receiver has been replaced for a few seconds.

OTHER PARTIES ON YOUR LINE

If you wish to know the names of the other parties on your line, you may obtain this information from our Business Office.

TO CALL ANOTHER PARTY ON YOUR LINE

1. Dial our business office and give your telephone number and the number you wish to call.
2. When given the code number, hang up.
3. Dial the code and hang up.
4. When your bell stops ringing, your party has answered.
5. If your bell does not stop ringing within a reasonable time, lift your receiver to stop the ringing, or it will stop automatically in two to four minutes. Try the call later.

If you require any assistance in the operation of your telephone, please stop by the Business Office for a personal demonstration, or the Telephone Company will be glad to send a representative to your home to give you any assistance you desire.

TALK NATURALLY

Normal tone of voice is best over the telephone. Whispered words are indistinct. Shouting distorts the voice and may make it gruff and unpleasant.

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

A vital factor in the highly specialized work of providing dependable, low cost telephone service is that telephone supervisors—foremen, wire chiefs, chief operators, managers—start at the bottom.
